

Lucky Season 13: Meet the Winners of the Biggest Vocabulary Bowl Ever

The Fall 2025 Vocabulary Bowl set a new record, with nearly one million learners worldwide mastering more than 5.3 million words

SAN MATEO, Calif. — February 4, 2026 — 5,323,633. Yes, you read that right: 5.3 million! That's how many words were mastered in the Fall 2025 [Vocabulary Bowl](#), making Season 13 the biggest in the competition's history. Nearly one million students, supported by more than 65,000 teachers from 6,000 schools across 120 countries, raced to expand their vocabularies, compete for top honors and prove that word power adds up fast.

In the U.S., schools competed in three divisions based on enrollment size: Division I (1,000+ students), Division II (500-999 students) and Division III (up to 499 students). International schools, teachers and individual learners also faced off in their own brackets.

Some household names returned to the top. Others rewrote the script.

Sound familiar? [Saint Thomas Aquinas High School](#) is back. The Florida school clinched the Fall 2025 championship title by mastering an impressive 88,000 words, outpacing last season's breakout winner, [Woodland Middle School](#) (TN). Woodland still made a strong showing, finishing second overall and first in its division.

Here's where things got interesting: [DuBois Area High School](#) (PA) was dethroned in Division II by steady state-wide standout [Coweta High School](#) (OK), which claimed its first-ever divisional title. And the Sunshine State stayed busy, with three Florida schools earning spots among this season's top rookie winners.

Back to our usual programming: [Buckingham Collegiate Academy](#) (CA) extended its dynasty with an eighth consecutive Division III high school championship. [Muscatel Middle School](#) (CA) locked in its third Division III middle school win, while [Fred J Page Middle School](#) (TN) kept its momentum rolling with a second Division I middle school title.

Internationally, the competition was just as fierce: France's École Jeannine Manuel claimed the top international spot, unseating Singapore's Nan Hua Primary School. And new this season, schools from Saudi Arabia and Australia put in the work to break into the international top 10.

Behind every big finish was a teacher inspiring his or her classroom and school to rack up points. Four of the top 10 U.S. teachers came from [Mayville High School](#) (MI), while overall international winner École Jeannine Manuel also claimed four of the top 10 international teacher spots.
