

## Winner, Winner: IXL Celebrates an Award-Filled 2025

*IXL racked up honors across numerous categories during a busy award circuit.*

**SAN MATEO, Calif. — February 6, 2026** — A crowded trophy case is a good problem to have—just ask [IXL](#).

Last year alone, the company won 13 awards, the most of any educational technology product. And while the volume is impressive, it's the variety that tells the story. Recognized across primary and secondary education, with awards spanning personalized learning to assessments, IXL is proving itself to be the go-to resource for teaching, testing and progress monitoring.

While every award is special, a few highlight how far IXL's reach and impact extend.

### **The future of testing: solving the ‘what’s next?’ problem**

IXL was named THE Journal's Best Assessment Solution at a critical time, as districts move from high-stakes, summative tests to more frequent, formative assessments.

What's driving the shift? The need for timely updates and clear next steps. Too often, educators are left analyzing and wondering how to guide students forward after a test. That's where the IXL [LevelUp Diagnostic](#) comes in.

LevelUp can be used as a benchmark, or as a Real-Time diagnostic—a feature unique to IXL. In just 10 minutes a week, students answer questions that give teachers continuous, up-to-date data throughout the year. But the true magic of LevelUp lies in what happens after the assessment. IXL automatically creates personalized action plans for each student, outlining exactly what they should practice to grow.

### **Tackling literacy head-on**

IXL also collected its *ninth* CODiE Award after winning Best English Language Arts Instructional Solution for Grades PK - 8. The honor comes as schools are seeking new ways to elevate historically low reading scores.

IXL offers a powerful solution to improve literacy regardless of where learners start. With [thousands of skills](#)—from foundational reading to persuasive writing—there's material suitable for all students. Additionally, IXL's [instructional resources](#) help learners make progress independently, even when a teacher isn't present.

### **Going global**

IXL's recognition stretched beyond North America to the United Kingdom, where it earned a coveted Bett Award in the Numeracy & Maths category.

The UK's school trusts turn to IXL to support their staff as they battle heavy workloads and widening achievement gaps in math. IXL's skill plans [take the guesswork out of lesson planning](#) by providing content that perfectly matches the national curricula in England, Scotland, Northern Ireland and Wales. Additionally, IXL's KS1 and KS2 SAT skill plans streamline test prep, ensuring students are thoroughly prepared for these critical exams.

### **And the winner is...**

Several other prominent organizations recognized IXL's role in advancing learning in 2025, including:

- **EdTech Digest Award:** Best Personalized Learning Solution
- **ISTE Best of Show Award:** Primary Education, Secondary Education
- **SmartBrief Education's Readers' Choice Award:** Best Math Instruction
- **Tech & Learning Awards of Excellence: Best of 2024:** Primary Education, Secondary Education
- **Tech & Learning Awards of Excellence: Back to School 2025:** Primary Education
- **THE Journal Product of the Year Award:** Best Adaptive / Personalized Learning Tool, Best Reading Program and Best Math Program

“2025 was a banner year for IXL. We helped more than 17 million students across the globe and released more new features and functionality than ever,” **said Paul Mishkin, CEO of IXL Learning.** “We’re honored to receive recognition from so many well-respected organizations and can’t wait to make an even greater impact in 2026!”
